Stanhope Capital

Stanhope Capital Group – Analyst, Fund Selection Specialist

Stanhope Capital Group provides asset management and advisory services to private clients, charities, and institutions around the world. Founded in 2004, the group offers a full range of services – investment management, consulting, merchant banking and alternative investments – in an environment where the interests of partners and employees are aligned with clients.

After the merger with US based FWM – owner of Forbes Family Trust, LGL and Optima – Stanhope Capital Group is now one of the world's largest independent global wealth management and advisory firms overseeing close to $25bn of client assets with offices in London, Geneva, Paris, New York, Philadelphia, and Palm Beach.

Stanhope Capital LLP positively encourages applications from suitably qualified and eligible candidates regardless of gender, race, disability, age, sexual orientation, religion, or belief. We seek to create a flexible environment which ensures our working styles work for each other and our clients. If you are interested in learning more about our flexible working approach, we would be happy to discuss it.

About the role:

- The candidate will be expected to perform a quantitative and qualitative role within the firm's investment management business which will suit an individual with 1-2 years' experience
- We are looking for a quantitatively minded candidate with experience working in Microsoft Excel, and who has a willingness to learn skills relating to Bloomberg and Morningstar
- You will work alongside the Head of Equities and the Head of Fixed Income & Alternatives, focusing on funds which invest in equity, fixed income and alternatives
- The role involves conducting end-to-end investment, and responsible investment due diligence reviews of funds and their managers, as well as monitoring funds on the approved list
- You will also be expected to maintain a broad knowledge of the market environment and investment products and contribute to internal discussions on such topics
- The investment research team reports into the Chief Investment Officer. You will also work closely with the client team and partners and be available to support and advise them on approved funds

About you:

- At least one years' investment experience, ideally with knowledge of the fund management industry
- Understanding of quantitative analysis techniques
- Comfortable working autonomously and collaboratively; adaptable to working with different personality types with dynamism and enthusiasm
- Excellent verbal, written and communication skills with a strong attention to detail.
- Hard-working and self-motivated with a solutions-oriented and proactive approach to problems and tasks
- Welcomes challenge with the ability to think critically and challenge/support others on investment ideas
- Willingness to undertake continued professional development

You would additionally benefit from:

- Experience using Bloomberg and MorningStar
- Genuine interest in investing and financial markets
- Currently working towards a relevant industry qualification (e.g. CFA, IAD, CISI Diploma)
